The balance of bacteria in your digestive system has been linked to overall health and wellness. However, an imbalance can lead to many health concerns such as digestive issues, mental illness, obesity, allergies, and more. Vinco's **ProBiotic** contains a 50/50 blend of probiotic strains proven to work symbiotically. Using probiotic cultures to promote health has an inherent advantage in that it is a natural approach which does not disturb the natural colonizing flora in the human body.[†]

Probiotics

- Live micro-organisms that you can consume through fermented foods and supplements
- Considered to be "good bacteria," these micro-organisms promote a healthy gut[†]
- Improve digestive and bowel functions, as well as work to prevent and treat issues such as diarrhea, constipation, gas, and bloating[†]
- May reduce severity of allergies[†]
- Stimulates the immune system[†]
- Reduces symptoms of lactose intolerance[†]
- Counteracts antibiotic side effects[†]

What strains does Vinco's ProBiotic contain?

- *Lactobacillus acidophilus* (12.5 billion CFU)
- *Bifidobacterium infantis* (12.5 billion CFU)
- All work together to create and maintain a healthy gut. **ProBiotic** also contains 3% Fructooligosaccharides, or FOS, a prebiotic known to support the growth of healthy bacteria in the digestive tract[†]
